Keratin Complex Smoothing Therapy is different. Conventional straighteners or relaxers may break the protein bonds within the hair’s structure, causing each strand to reform into a permanently straight shape. Keratin Complex’s revolutionary technology does not break the hair’s bonds, instead delivering the versatility of smoother, healthier-looking hair that can be styled wavy or straight as desired. Keratin Complex’s signature keratin works effectively on all hair types. Our unique Smoothing Therapy treatments contain high concentrations of keratin that penetrate throughout the hair structure, and then are sealed within the cortex to repair damage.

KERATIN SMOOTHING EXPRESS TREATMENT
